EPA issued a news release highlighting Administrator Scott Pruitt's visit to Houston Texas on September 15, 2017, to review the Agency's response efforts in areas affected by Hurricane Harvey. Administrator Pruitt toured the San Jacinto Waste Pits Superfund Site and met with State and Federal Officials. Administrator Pruitt also participated in an aerial tour of additional Superfund Sites including Patrick Bayou, U.S. Oil Recovery, Highlands Acid Pits, French Unlimited, Brio Refining, and Dixie Oil Processors.

Two media requests were fulfilled for Reuters and Bloomberg. Media trends were the closing of the Houston Lab and the benzene leak at the Valero Facility.

Susan Spalding, Associate Director  
Hazardous Waste Branch  
EPA Region 6
